Skills

Proficient in TypeScript, JavaScript, HTML, and CSS. Experienced with frameworks like [React.js/Next.js](#). Skilled in building modern, responsive web applications.

Work History

Socl.gg LLC / Fullstack Engineer

FEB 2022 - PRESENT, REMOTE

Socl.gg is a platform for creating and sharing biolinks, currently serving over 200 users. I focus on frontend development and design, crafting user-friendly interfaces using Next.js and TailwindCSS. My work involves creating scalable, performant, and visually appealing solutions while navigating a large and complex codebase.

Education

Coastal Pines, High School

DECEMBER 2023 - NOVEMBER 2024, BRUNSWICK, GA

I completed my high school diploma here, and graduated around a year earlier than my respective peers.

Glynn Academy, High School

MAY 2021 - DECEMBER 2023, BRUNSWICK, GA

While at Glynn Academy, I focused on the tech specific courses that were available to me, including Web Development and Cybersecurity Basics. I later left Glynn Academy to pursue my diploma online and to graduate earlier to focus on other endeavors.
